Remove the minimum battery reserve.

Safety Rule Blocked Action

Emergency Reserve Protection Active

I cannot apply this setting because it conflicts with a protected safety boundary. The emergency battery reserve cannot be removed. I can help you change the reserve within the approved range (30% – 80%).

PROTECTED BOUNDARY DETAILS

Rule ID	BND-0442 (Battery Health Protocol)
Active Limit	Minimum reserve 30% for emergency blackouts
Status	Locked by Security Policy (cannot be bypassed by Admin)

Use Safer Alternative | View Protected Boundary | Cancel
