Severe weather bulletin No. 27
Issued 12 November 2026 at 11:15 IST

A severe convective storm is expected over the north wind corridor (Anantapur, Gooty and Tirupati wind sites) from 14:30 to 17:30 IST on 12 November 2026, with gusts above 90 km/h.

Wind turbines in the area should expect to reach cut-out speed. Field crews must not work at height in the affected area during this period.

Next update at 13:00 IST.
